

January 27, 2010

Dear Parents,

I am going to ask a rhetorical question, “Do you want to send your student to the best school?” Of course, the answer is yes, because you care a great deal for your student. If you look closely at our logo you see the following words: “The pursuit of God, Knowledge, Compassion, and Leadership.” Below we have described how we help your student with that pursuit.

The Preparatory and High School uses a wide variety of curriculum materials including Bob Jones, Holt and Saxon books. These materials are well-tested and are very strong academically. Along with providing a high quality academic program we also place a high priority on the training of our students; spiritually, emotionally and physically.

To supplement the curriculum, classes will include trips, mission projects and outdoor education courses such as the marine biology camp on Catalina Island. This coming year the preparatory students will be attending a challenge camp in the San Bernardino Mountains. The class will be involved in corresponding with missionaries and community projects. The school intends to educate the whole person including teaching in the area of communication and conflict resolution, physical and emotional health, leadership and life skills.

Our high school students are able to participate in additional projects, trips, and opportunities to enhance their background knowledge and experiential knowledge. Students will also have the opportunity to demonstrate compassion towards others in a variety of activities. This coming year the students will be traveling to Washington D.C. to learn and experience the heritage of our great land.

The school looks forward to investing considerable effort in helping its students to achieve their mental, emotional, physical and spiritual potential. We purpose to partner together with you, the parent, to play a critical role in training tomorrow’s leaders.

In His Service,

Brian Hendrickson  
Principal  
GV Christian Preparatory and High School

Steve Withey  
Principal
